Pool Demolition Requirements

Requirements for Demolition of a Swimming Pool

Site plan on 11x17 inch paper, 3 copies, showing the pool, residence and the following information:

- ✓ Name of the owners and the location of the project.
- ✓ Location of the pool on the site plan.
- ✓ A statement that the chemical content of swimming pool water will be adjusted to zero Ph. prior to draining the pool.
- ✓ A statement that the remaining swimming pool water will be pumped to the sewer *not* the storm drain or gutter.
- ✓ Jack-hammer bottom of the pool to allow sufficient drainage.
- ✓ A single line drawing, which indicates all utilities, such as gas and electric, will be capped at their source.
- ✓ Jack-hammer coping and sides of pool down 18 inches (okay to place at bottom of the pool).
- ✓ Jet-sand or use flowable compacting fill.
- ✓ Inspections are required before backfilling and when work is completed.
